

GFP is a tool to...

- Facilitate and respond to local dialogue and engagement
- Mobilise a growing range of partnerships
- Build on successful forest management and funding mechanisms
- Support locally defined alliances and ways of working for both people and forests.

Activities

- "People's diagnostics" or focus groups in pilot countries
- Improved in-country collaboration of donors
- Identifying effective partnerships
- Cross-country thematic work
- Effective and targeted communications
- Sharing of lessons through the learning approach

Investment in locally controlled forestry

- International initiative designed to meet GFP objectives
- Long term objective;
 - To ensure investment streams address concerns of forest dependent people and contribute to positive role of locally controlled forestry
- Process designed for 2009 and beyond

Expected outcomes from dialogue

- Constraints and opportunities to investment as basis for development of an going process,
- Enhancement of partnerships at a global level,
- Links to in-country catalytic actions

Catalytic actions

- Lesson sharing into dialogue/ into country actions
- Analytical studies and background papers
- Fund managed by rights holders groups to address constraints and support investment opportunities
