Welcome to TFD’s

Field Dialogue on
Tree Plantations in the Landscape –
Indonesia

12-16 June 2023
Kerinci and Pekanbaru, Indonesia

#TPLIndonesia
This Evening’s Program

18:30  Welcome
   - Anderson Tanoto – April
   - Host Organizations
   - Co-Chair and Participant Introductions
   - Dialogue Ground Rules

19:30  Background Paper

20:15  Field Visit Overview

21:00  Adjourn
Tree Plantations in the Landscape – Indonesia

TPL Indonesia Advisory Group
Maurem Alves - Klabin
Fitrian Ardiansyah - IDH
Aditya Bayunanda - WWF-Indonesia
Marcus Colchester – Forest Peoples Program
Gamma Galudra - RECOFTC
David Ganz - RECOFTC
Paul Hartmarn - World Bank
Tomi Haryadi - WRI Indonesia
Lucita Jasmin - APRIL
Ivone Namikawa - Klabin
Harry Oktavian - Bahtera Alam
Nigel Sizer - APRIL

Dialogue Coordination and Support
- APRIL
- Bahtera Alam
- Forest Peoples Program
- RECOFTC
- The Forests Dialogue
- WWF

#TPLIndonesia
Dialogue Co-Chairs

Aditya Bayunanda – WWF Indonesia
Marcus Colchester – Forest Peoples Program
Lucita Jasmin – April
Rulita Wijayaningdyah – Kahutindo

+ Support from the TFD Team
   (Gary, Liz, Ismini and Violet)

Overview of The Forests Dialogue
The Forests Dialogue’s Origins

Background

- Established in 2000 by NGO and Business Leaders;
- To reduce conflict among forest stakeholders;
- Create an independent, international platform and process to discuss key SFM and conservation issues;
- Build mutual trust, enhanced understanding and commitment to change.
TFDs “Dialogic Change” Model

1. ‘ENGAGE’: Identify key issues, build trust, share perspectives and information.

2. ‘EXPLORE’: Seek consensus about challenges and opportunities to solve a forest-related ‘fracture-line’.

3. ‘CHANGE’: Promote and facilitate actions that lead to solutions, with impact in policy and on the ground.
TFD’s Current Initiatives

- Tree Plantations in the Landscape
- Land Use Dialogues
- Bioenergy from Forests
- Ecosystem Restoration
- Forests and Climate
- Climate Positive Forest Products
Dialogue Ground Rules

TFD Operates under the Chatham House Rule
“Participants are free to use the information received, but neither the identity nor the affiliation of the speaker(s), nor that of any other participant, may be revealed”.

- The “Spirit” of dialogue
- Practice active listening
- Participate as individual
- Take space, make space
- Help define and own the outcomes
TFDs Tree Plantations in the Landscape (TPL) Initiative
TFDs Initiatives on Planted Forests

**Intensively Managed Planted Forests (‘05-’08)**

Key Objective: Reduce conflict; address social issues; answer ‘if, then’ question

Process: Scoping; Indonesia; China; Brazil; South Africa (250+ participants)

Impact: “Best Practice”; Voluntary Guidelines; NGP Process; Policy on Inclusion

**Tree Plantations in the Landscape (‘15-current)**

Key Objective: Understand how “improved” plantations fit in a diversified landscape

Process (thus far): Scoping, Chile, Brazil, NZ

#TPLIndonesia
Current Identified Challenges

- How to meet growing demand on limited land-base;
- Recognition/support of formal and informal rights and access of Indigenous Peoples and forest-based communities;
- Lack of agreement/understanding impacts/benefits of intensification vs. extensification;
- Weak governance and limited development in key regions;
- Reliance on exotic monocultures and lack of plantation models;
- Uncertainty over impact of new technologies.
TPL Initiative Objectives

- Consider the design and implementation of plantation forests in the context of jurisdictional and landscape approaches;

- Review approaches to enable good governance and inclusive development and understand the potential of plantation forests to contribute to the global development agenda;

- Identify key externalities associated with the development and management of plantation forests;
TPL Initiative Objectives

- Learn about and encourage adoption of new practical solutions to specific contextual challenges (ie, peatland management, land tenure and dispute resolution, social forestry, restoration etc.);

- Explore the diversification of the forms and species composition of plantation forests; the sustainability of plantation forestry systems; and access to and use of new technologies.
Terima kasih!
