The Forest Dialogue Syktyvkar October 23, 2008

Socio-Economic Situation Rating Estimation of Municipalities, 2006

Production Potential

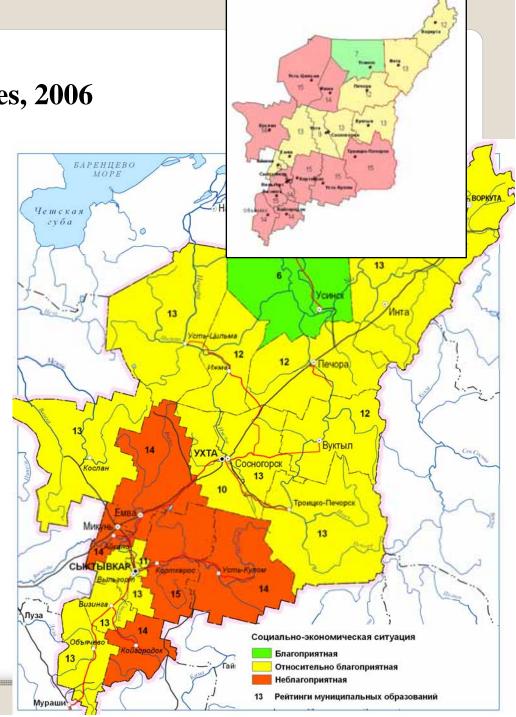

Financial Sustainability

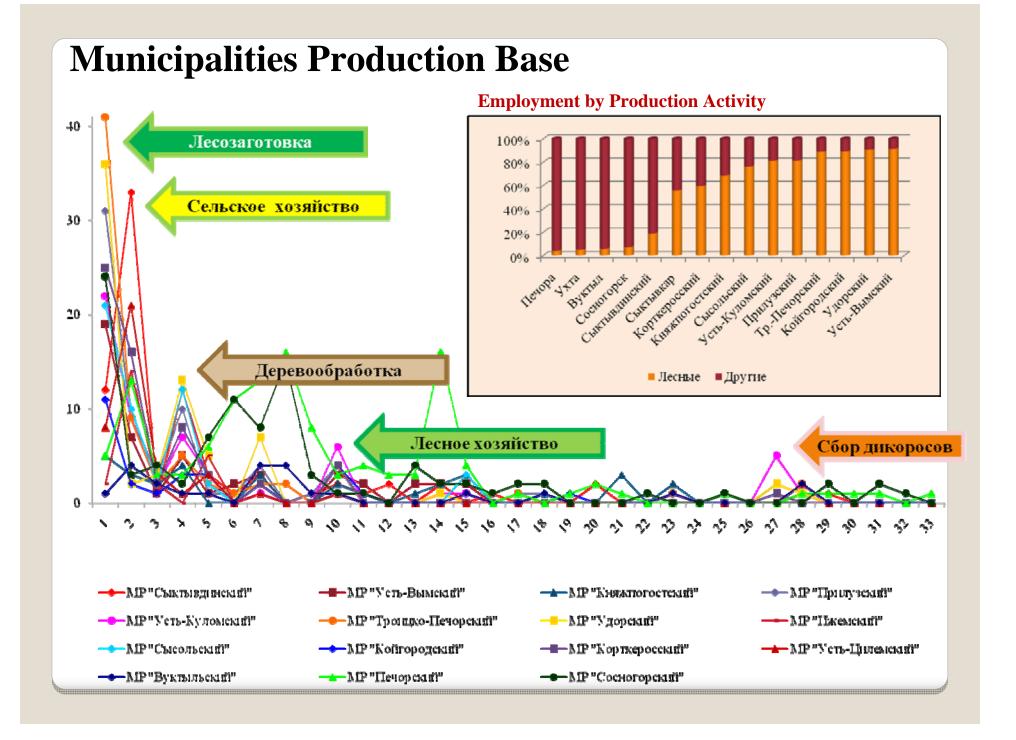

Demographical Situation

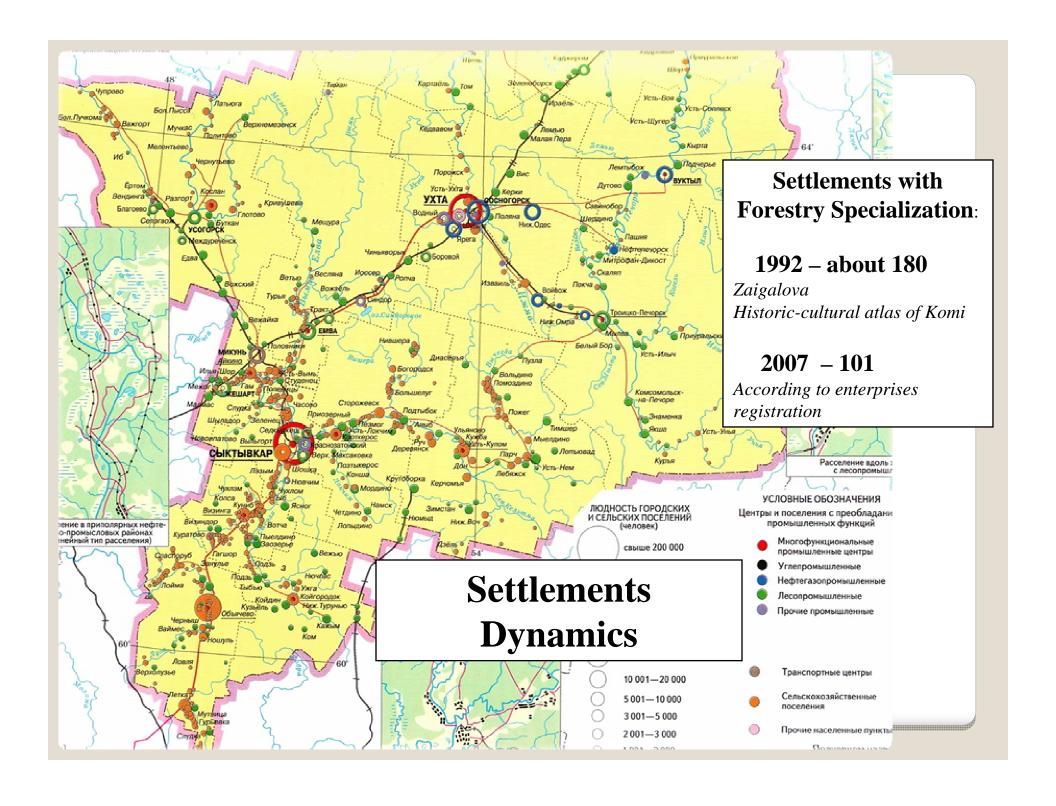

Cost of Life

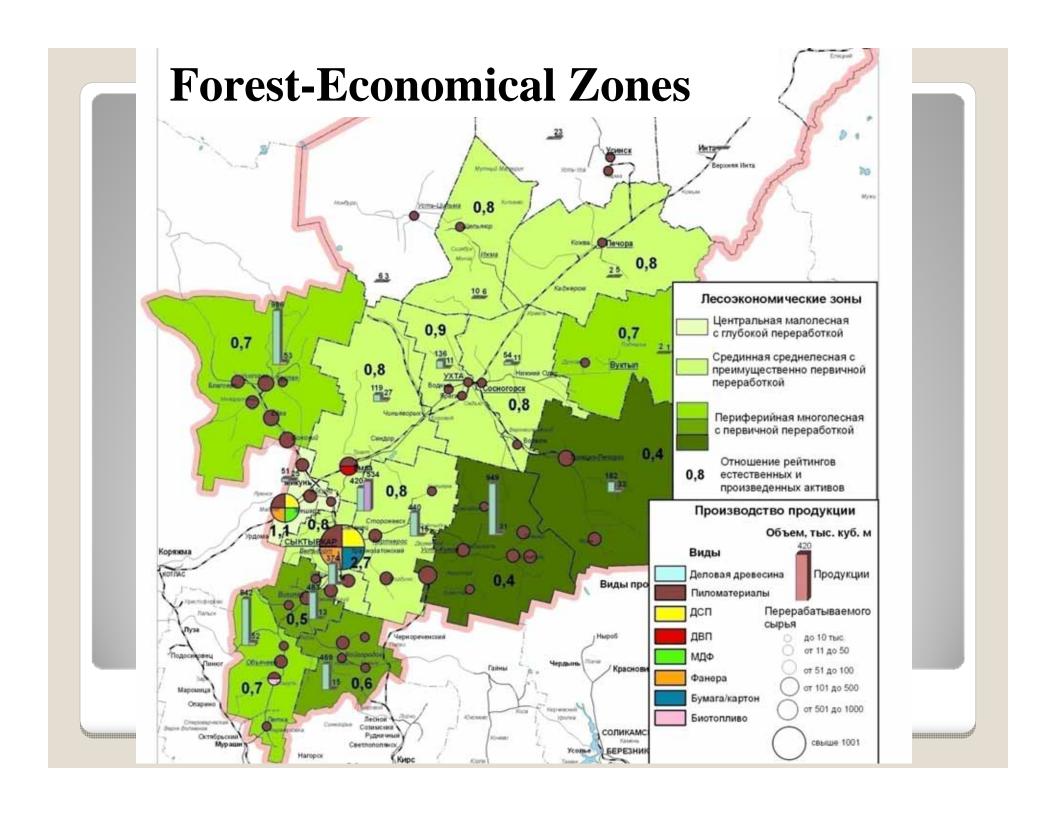

Infrastructure

Social Tension

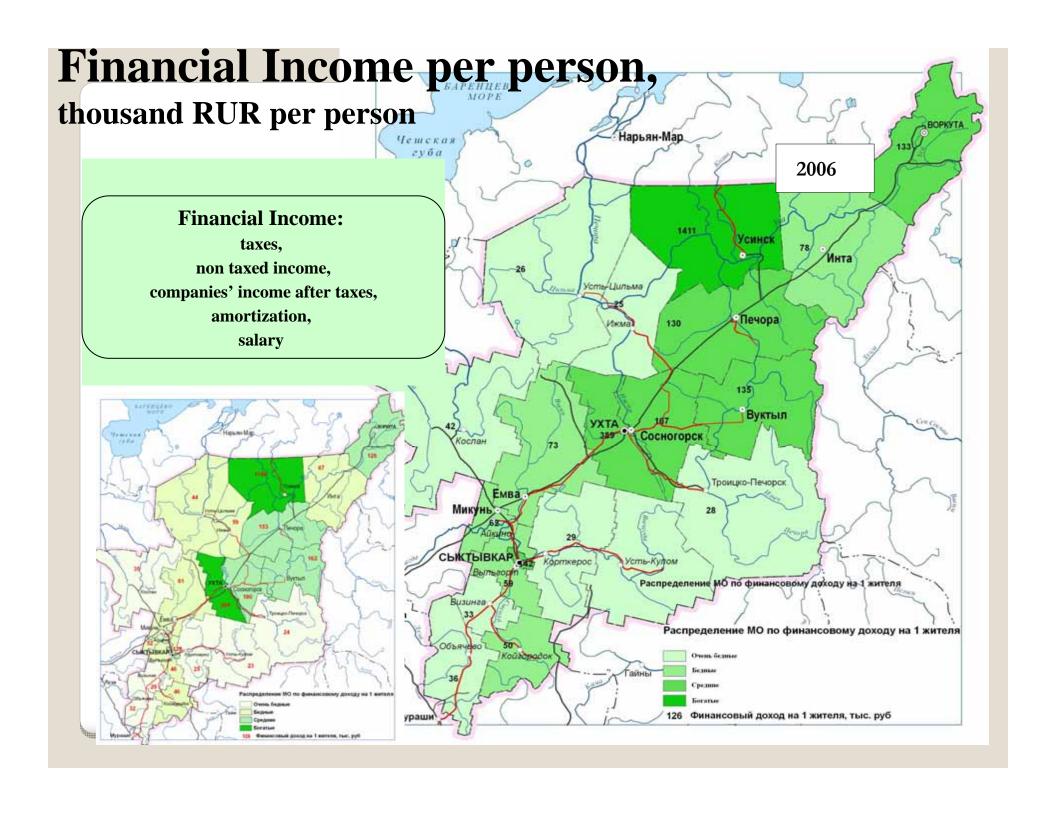

Features of Forest-Economical Zones, 2007

Indicators	Forest-Economical Zones				
Indicators	Central	Middle	Periphery		
Loaded production on the whole, cubic meters	27603	1454	2805		
Agreed Forest Area, million cubic meters	0,75	8,6	17,9		
Logging, million cubic meters	0,27	1,87	5,27		
Forest area use, %	36	22	30		
Timber processing (goods)*	P,Pp,C,Pw,S	F, S			
Production of processing, million cubic meters	8537	659	513		
Processing volume, million cubic meters	4,9	0,25	0,44		
Production of processing cost of 1 cubic meter, thousand RUR	5,5	2,6	1,16		

^{*}Forest production: P – pulp, Pp – paper, Pw – plywood, C – cardboard, B – board, S – saw materials, F – fiberboard

Social Potential

Demography

Employment

Population Quality

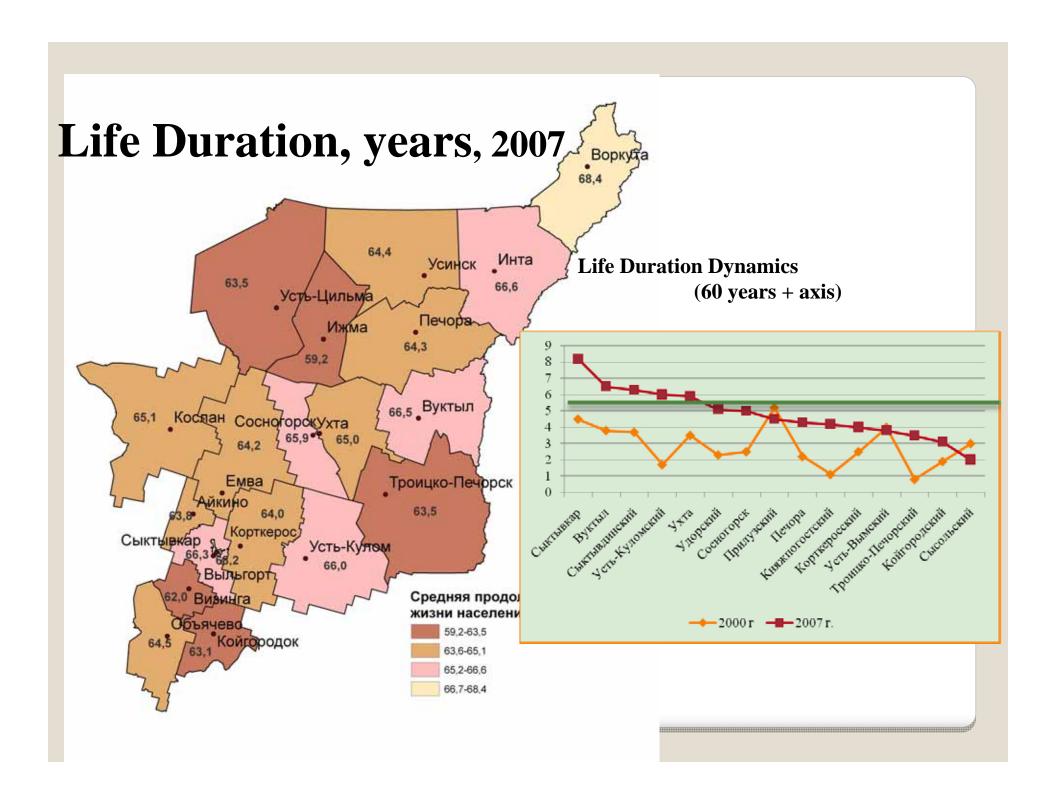

Health

Income

Population Quality

Koigorodok region

Population Employment

Employment reduction in the region 1994-2006 up to 1,2 times (Komi – 1,2)

Registered unemployment in the region – 6,2 %

Griva village 12,5%, Nizhyaya Turunjya 11,4%, Kom 9,2%

Among unemployment:

55 % - women,

27 % – **youth** at the age of 16-29

36 % – high and primary professional education

Unemployed economically active population – 22%

Verifies in different settlements from 13 up to 83 %

More than 50 % in villages Guzh, Kom, Ust-Voktym, Verkhnyaya Turjya

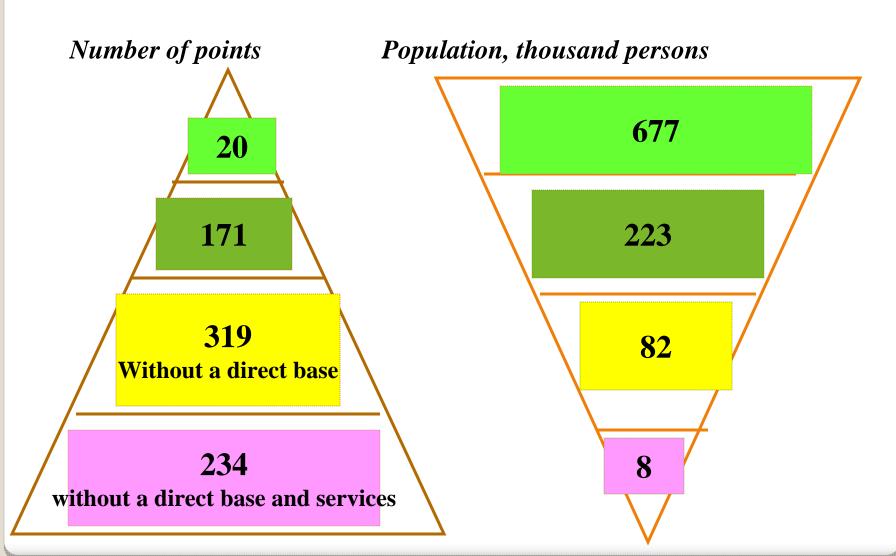

Adaptation of Population –

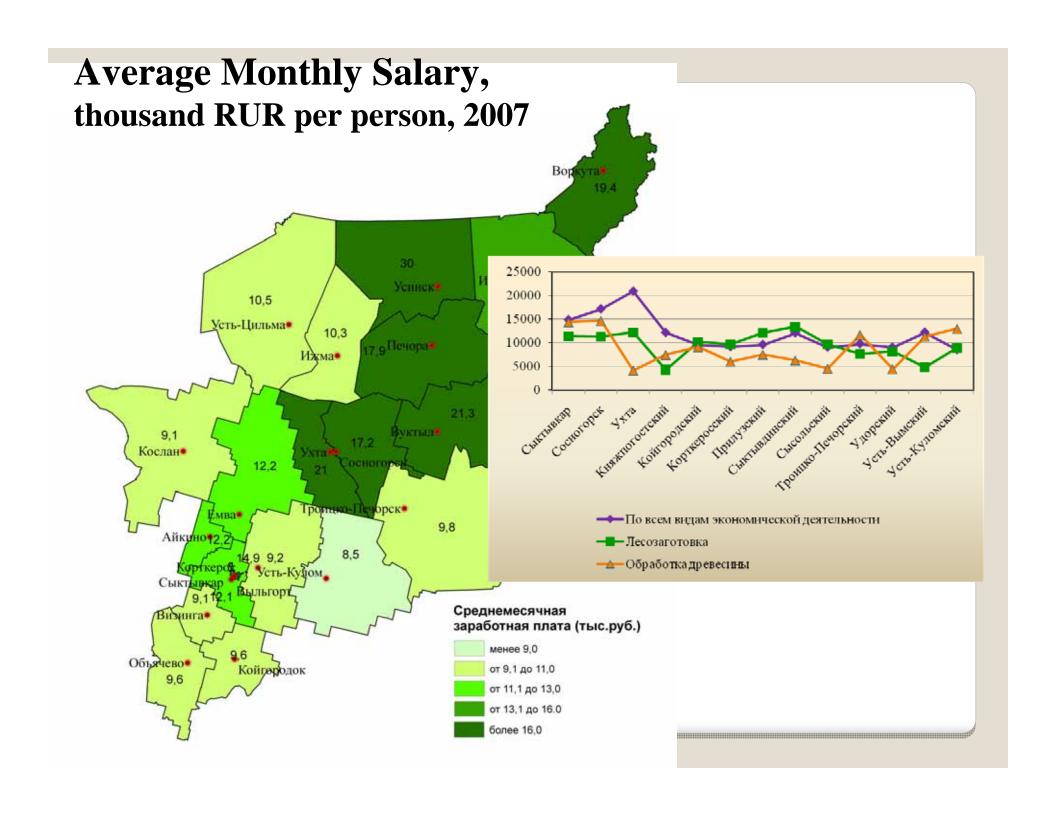

professional education,

Transfer of employment to nonproductive sphere (budget organizations)

Degradation of Population is developing for jobless generation

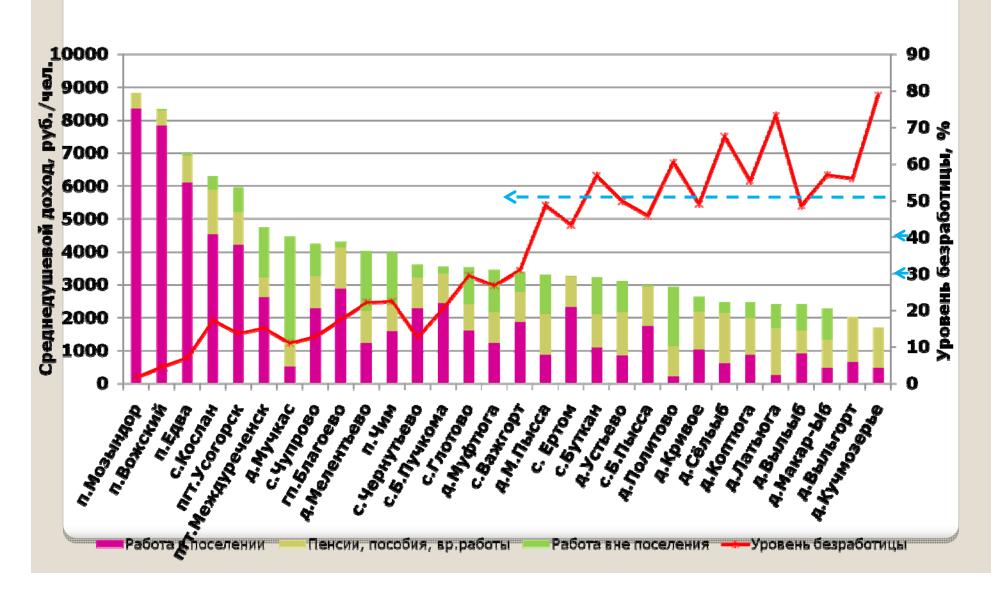

Large scale of «space exclusive» - areas without conditions needed for comfort life and industry

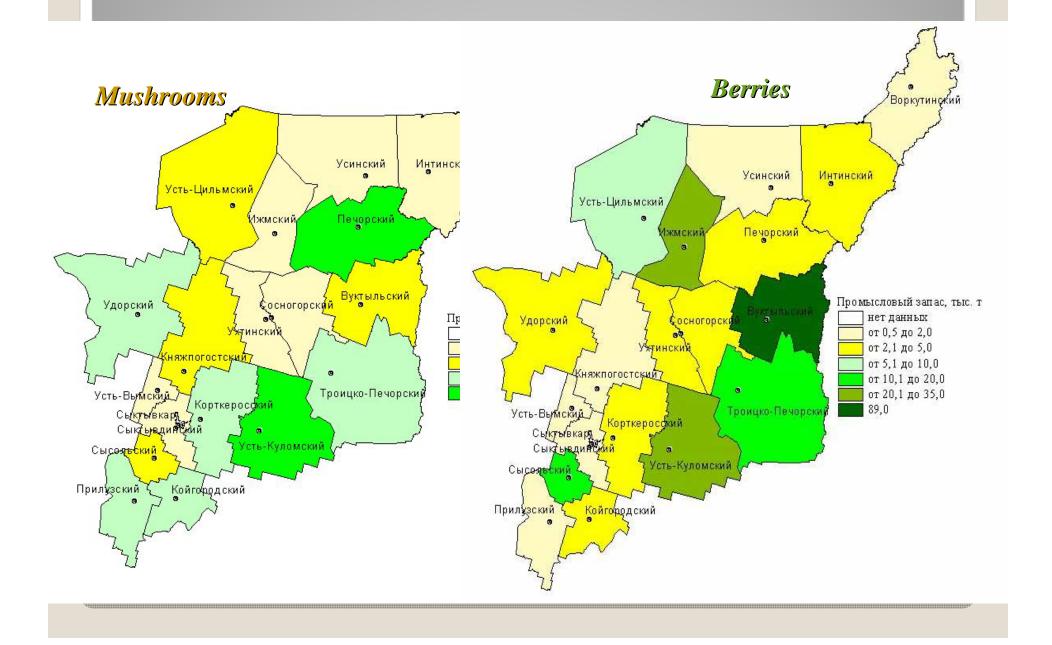

«Washout» of Production Base

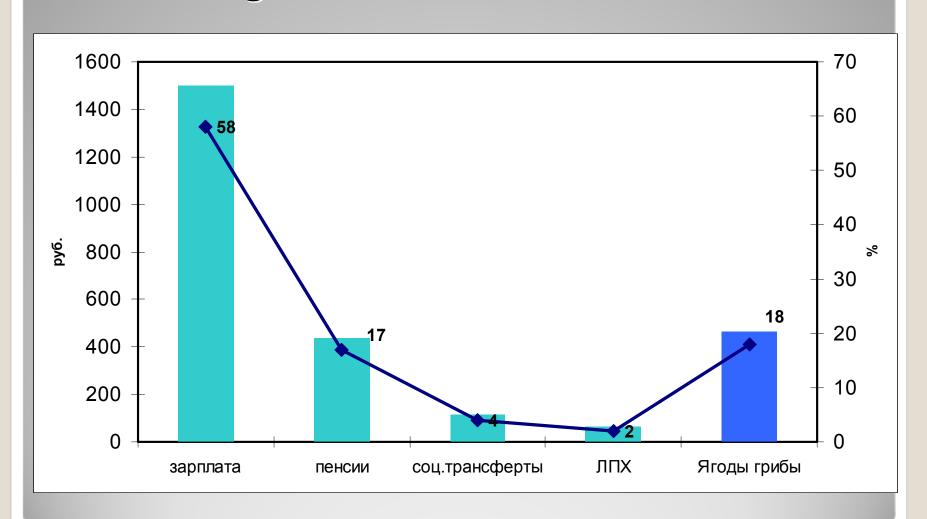

Economical "washout" of periphery, hypertrophy of the capital Low level of income and employment in rural settlements

Trade Reserve of Mushrooms and Berries Resources

Mushrooms and Berries Role in Population Income, Nivshera Village

Role of Individual Agriculture, Hunting, Fishing, Gathering of Wild Plants

	Important for self-sufficiency %				Important as income resource %				
Regions	garden	cattle	hunting, fishing	mushrooms berries	l garden		hunting, fishing	mushrooms, berries	
Udora	85	51	60	69	29	20	23	37	
Koigorodok	83	52	29	78	22	11	11	61	
Sysola	89	62	21	61	36	16	8	25	
Syktyvdin	79	32	17	21	14	5	7	25	
Troitsko-Pechorsk	85	29	40	69	3	3	6	10	
Ust-Kulom	87	62	20	25	31	25	6	38	

Dynamics of Material Well Being and Migration

Destan	«Will be any changes of well being for 5 years?»			«Will it be better in the future 5 years?»			«Are you going to change the place of living?»		
Region	Improve d	No changes	Got worse	Will be better	No changes	Will be worse	Will not leave	Want to leave	No answer
Udora	39	48	13	22	59	16	62	38	0
Koigorodok	42	50	8	15	48	30	58	42	0
Sysola	26	49	25	17	44	38	56	44	0
Syktyvdin	50	42	8	29	49	18	61	34	4
Ust-Kulom	47	35	18	24	34	42	71	27	2

To Strengthen the Space

To gripe the settling system: close and resettle

To Unite the Space

to make development conditions equal

Infrastructure

- restore forest roads;
- energy: gas, local energy systems, reliability of transmission facilities;
 - social services.

Network organization of production

- forestry,
- agriculture.

Modernization of Space

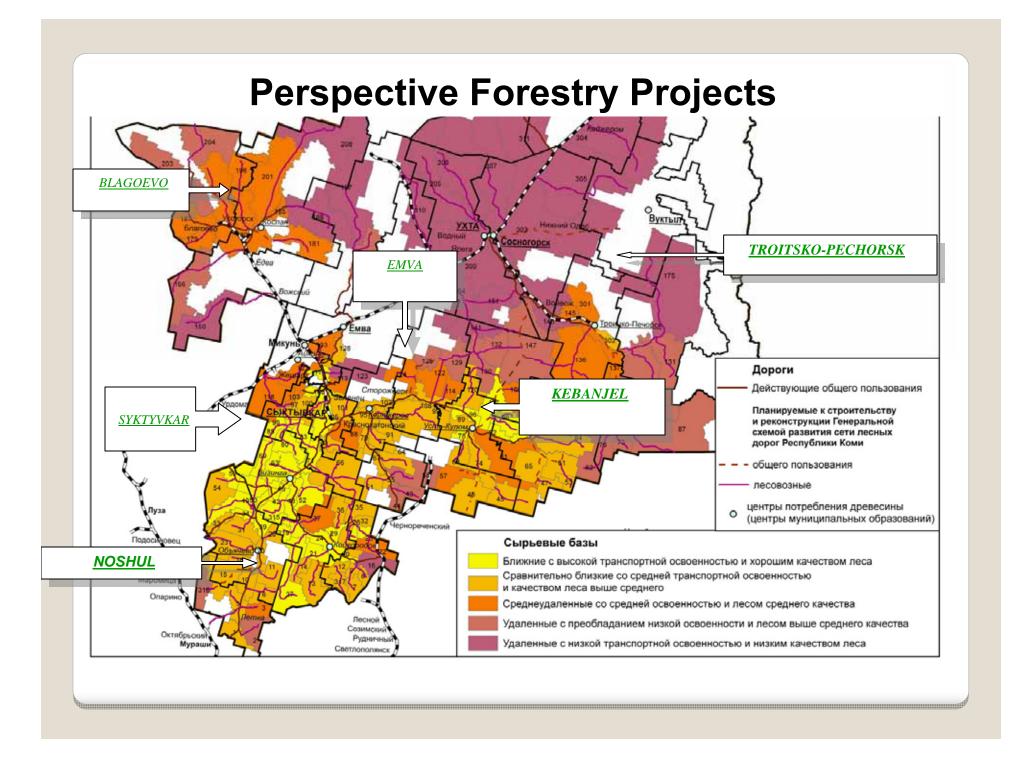

Restore the production base

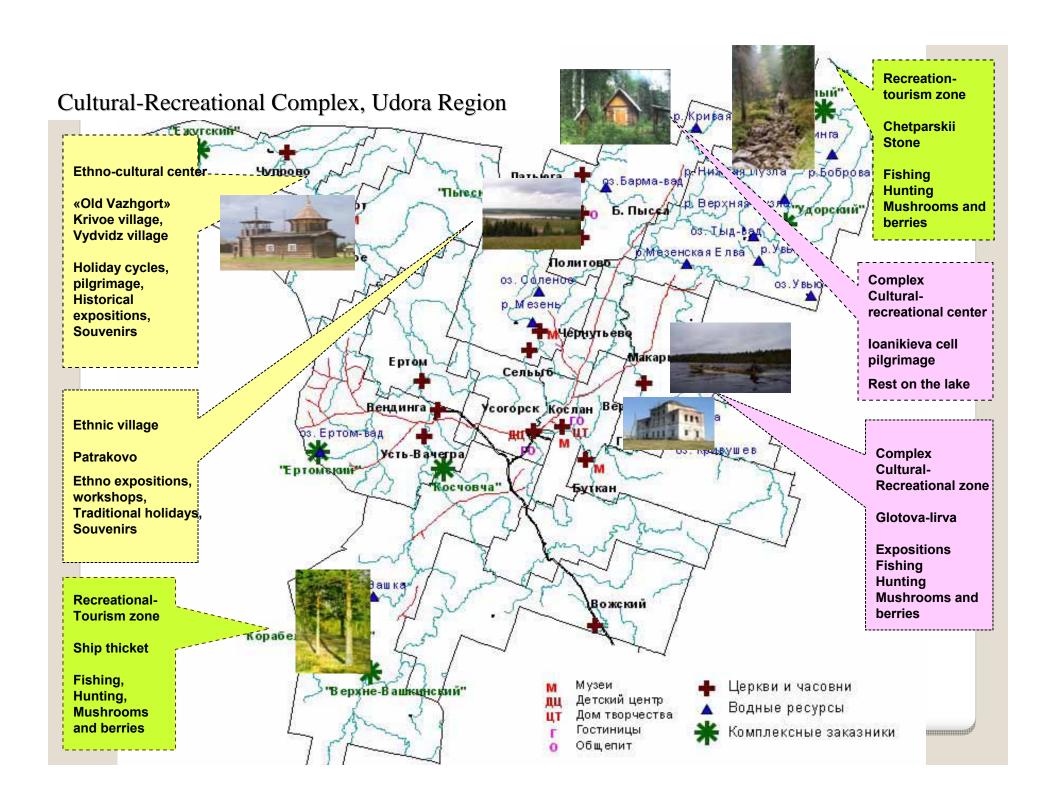

- decentralization and oriented on inner demand diversification of forestry sector,
 - new business,
 - local staff.

Replace industrial base of economy

- fishery (aqua sector),
- «economy of feelings» (cultural-recreational),
- mushrooms and berries economy,
- revitalization of traditional life support.

Innovationaly polarize

Settlem Udora I	Workston Co.	прово
Types of Settlements	Development recommendations	Выльторт Боль шое Острово Важгору
	High development potential	оль шие Чирког Мелентьево Мелентьево
Region Centers– forest settlements	Development of wood, mushrooms and berries, agricultural processing, production of building materials	Ля зю в устьено Сельы в Зарая ы б
	Middle development potential	Винаево Ертом Солнечний Усогорек В Выльыб Борово Вендины Усогорек В Выльыб Вендинозерь е
Settlements Centers	Development of regional forestry base Development of agricultural marketability Creation of cultural-recreational centers of different profile	благоево Кослан Плотово Семог вож Бу кан Острово Семог вож Бу кан Благоево Семог вож Бу кан
	Low development potential	Заправаний в помений
Close periphery	Development of agricultural marketability Conservation of important villages Development of cultural-recreational services	Потенциал развития населенных пунктов относительно высокий средний
	Very low development potential	
Far away periphery	Tourism mushrooms and berries business Consolidation of settling system	Автомобильные дороги / с твердым покрытием / грунтовые

Strengthening of Financial Potential

Income Increase

Municipal Economy Modernization

- Resource diversification
- Stratification
- Efficiency Increase

Territorization of Income

Local Economy

- Processing decentralization of forestry,
- Development of independent managing subjects,
- Tax «binding»,
- Correction of corporate benefit distribution
