- Bio-Energy as sub-theme in other dialogues
- SFM, Climate and Poverty as new organizing principle of all future TFD activities
- CoP 13 in Bali
- Process: Action Team, Situation Paper, Dialogue, Solutions-Outcomes-Implementation

# Forests and Climate

## Objectives for this Dialogue

- Identify two or three key elements on which to base a future outcome-orientated dialogue stream that would make real impact on future climate arrangements.

# Forests and Climate

## Objectives for this Dialogue

- Elements defined by:
  - areas of general agreement that require a major effort to embed to the mainstream international climate architecture,
  - areas of major disagreement that need to be resolved to ensure that forests are adequately represented in future climate arrangements.

# Forests and Climate

## Expected Outputs

- The Co-Chairs' Summary will be prepared and sent to participants;
  - Any major concerns can be communicated to Co-Chairs;
  - The Summary will be posted on the TFD website
- Roadmap to Poland and Denmark

## Principles of the Day

1. Listen and seek to understand
2. Be clear, Be patient
3. Strive for broad constructive solution oriented dialogue
4. Respect other perspectives
5. Participate as individual, not as organization
6. Chatham House Rule
7. Participants define and own the outcomes
