IMPFs in Brazil

Objectives for this Dialogue

- To build on the Indonesia and china regional dialogues by learning about current and future plans for planted forests in Brazil;
- Understand the context in which those plans are implemented as well as the competition for land use with other sectors of the society;
- Raise awareness about the unique issues presented by IMPFs in Brazil;
- Explore the use of technology to improve IMPF development;

IMPFs in Brazil

Objectives for this Dialogue

- Review and solicit input on systems of best management practices in the context of their implementation in Brazil, with consideration of lessons learned from experience to date;
- Explore social aspects such as tenure, property rights and environmental concerns related to large-scale plantations in Brazil;
- Incorporate Brazil experience into TFDs IMPF initiative.

IMPFs in Brazil

Expected Outcomes

- Refined understanding on IMPFs, by comparing the Brazilian experience, current context and potential IMPFs development to those of the previous visited countries;
- Contribute to the working group's collective learning and knowledge on the ongoing development of best management practice systems in Brazil and its sustainable development framework for IMPFs.
- Publish a *TFD Review* summarizing the IMPF initiative including key recommendations for stakeholder action
