4Fs Initiative Objectives

- ➔ Bridge the discussion on land-use between the forest and agriculture sectors, large to small scale, local to international;
- ➔ Develop understanding and innovation on the challenges of land and water use, intensification of forestry and farming while conserving forest values and safeguarding ecosystem services all within the context of meeting the needs of a rapidly growing global population;
- ➔ Establish specific and practical ways forward on key issues, and the preparedness to pursue them, among stakeholders internationally.

4Fs Finland Dialogue Objectives

- ➔ Share experiences from land-use decision-making and practices in the landscape dominated by northern semi-natural forests of Finland;
- ➔ Develop deeper understanding on how Finnish stakeholders balance demands from bio-mass, pulp and paper products and ecosystem services in its landscape;
- ➔ Synthesize lessons learnt from Finland that can inform land use decision-making and practices internationally.

Dialogue Co-Chairs

Juha Hakkarainen – MTK, The Central Union of Agricultural Producers and Forest Owners
