# Key Findings

## Strategic Needs:

- Alignment of REDD+ perspectives
- Alignment with land-use strategies
- Enhanced phased approach

## Key Issues:

- Access to, use and availability of information and its use in capacity-building
- Effectiveness of multi-stakeholder participation and engagement mechanisms and processes
- Reform of policy and legislative frameworks, particularly those on tree and carbon rights
- Establishment of a revenue and benefits distribution system
- Integration of REDD-plus policies with broader land-use plans and other sector and development plans

# Objectives of Conservation Campus

- Share and review existing policy and on-the-ground practices on Benefit Sharing;
- Identify key challenges to designing and implementing an efficient and fair benefit sharing framework for REDD+;
- Discuss how a multi-stakeholder dialogue process may provide added-value to existing bodies of work on Benefit Sharing

# Benefit Sharing- Challenges

## Benefits v.s. Revenue

### Where the benefits come from?

- Continuity and Effectiveness of Fund-based approach
- Role of the Market

### How much benefits?

- Sufficiency of payment for forest carbon

### Who get the benefits?

- Equity and effectiveness
- High-cost of small-scale initiative

# Benefit Sharing- Ways Forward

- Dedicated fund established at national level
- Participatory design
- Active involvement of private sector
- Building on existing experiences in all sectors
- Bundling benefits beyond forest carbon
- Cost reduction

# 감사합니다!
