

Break out Group 1

# OUTCOMES

## **1. Need to think about different levels of action in Strategy development**

- National, State, Territory, Municipalities, communities, etc....
- Participatory Process.

Build capacity and coherent strategies for addressing root issues at each level

# OUTCOMES

## **2. Institutionalizing structures conducive to problem identification, participation and REDD strategies.**

- State Level, Multi-stakeholder, forum with decision making capacity
- Need to develop operational/business PRACTICAL plans (phased)

Role for Civil Society: Collaboratively call government to action

# OUTCOMES

## **3. Need for Federal government structure for community outreach.**

-Need ongoing government presence to move 'talk' to "action" and collaboration

# Outcomes

## 4. Get Policies into Practice...

- Federal Level: robust legislation exists for fighting deforestation
- How to put into action, and work on building synergies, ensuring conduciveness and enabling stakeholder voice.

# SAFEGUARDS

Should there be conditions on international REDD funding?

1. prioritize the community
2. inclusive participation at all levels with community participation
3. FPIC

# FINANCE MECHANISMS

- link with 3rd party verification rather than bilateral funding source being the auditor?
- Amazon Fund: needs to function at ALL levels: especially how to get funds out at community level.
