Welcome to the

Field Dialogue on REDD+ Benefit Sharing in Peru

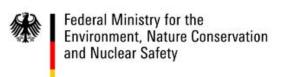

24-28 February 2014
San Martin and Lima, Peru

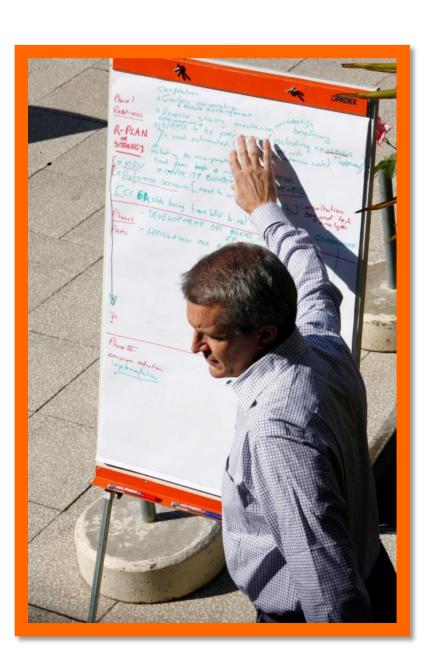

Today's Program

Morning Chair: Gustavo Suarez de Freitas

08:00 Opening, Welcome Address & Participant Introduction

08:30 International Context of REDD+ Benefit Sharing:

- The Forests Dialogue's REDD+ BS Initiative Gary Dunning and Xiaoting Hou
- Setting the Framework: National vs. Project Level REDD+ - Patrick Wylie
- Chair reflections on the field trip
- Discussion

09:40 REDD+ Benefit Sharing in Peru

- Background Paper Presentation
- Discussion

10:30 Coffee Break

11:00 Plenary Discussion: Key Challenges for Designing and Implementing REDD+ BS in Peru

12:30 Lunch

Afternoon Chair: Doris Cordero

13:30 Breakout Group Session 1: Stakeholder Perspectives on key challenges in designing and implementing benefit sharing in Peru

15:30 Break

16:00 Breakout group reports and plenary discussions

17:00 Adjourn for the day

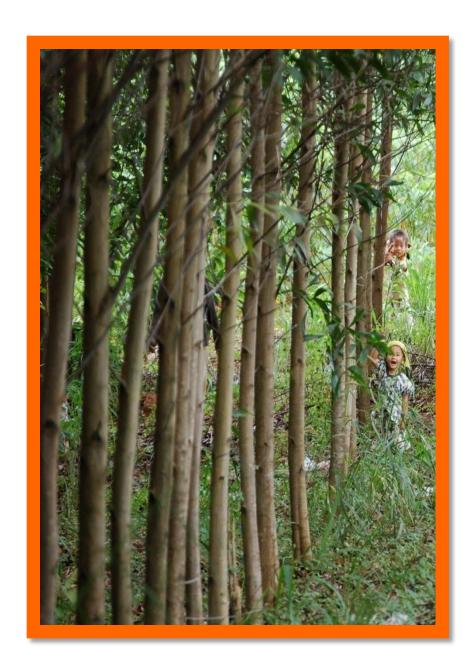

TFD & the REDD+ Initiatives

Peru Dialogue Hosts

The Forests Dialogue

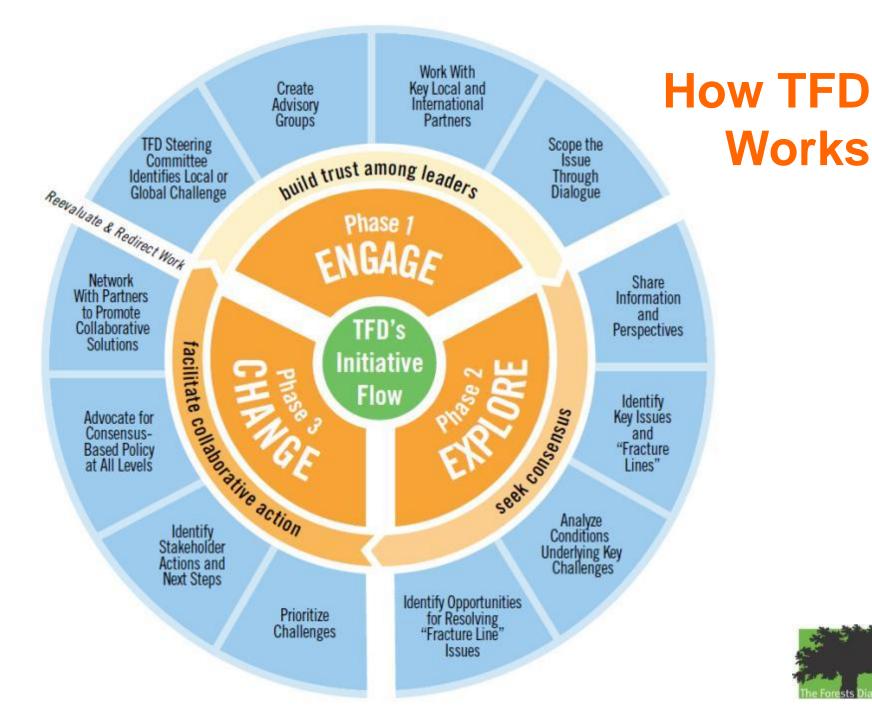

Purpose

- Established in 2000 by NGO and Business Leaders
- Reduce conflict among stakeholders in the forest sector
- International platform and process to discuss key SFM and conservation issues
- Build mutual trust, enhanced understanding and commitment to change

Structure

- Steering Committee
- Secretariat
- Network of Partners

TFD Initiatives

Priority SFM Issues

- REDD+ Benefit Sharing
- Food, Fuel, Fiber and Forests
- Genetically Modified Trees
- Free, Prior, and Informed Consent
- Investing in Locally Controlled Forestry
- Forests & Poverty Reduction and Rural Livelihoods
- Intensively Managed Planted Forests
- Illegal Logging and Forest Governance
- Forests and Biodiversity Conservation
- Forest Certification

TFD's Process

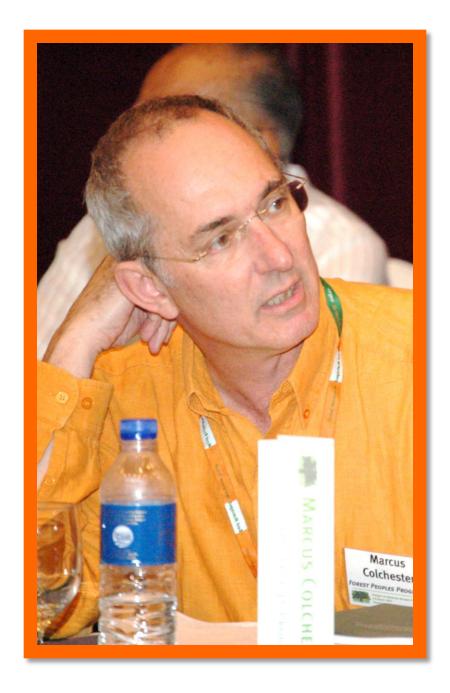

TFD Operates under the Chatham House Rule

"Participants are free to use the information received, but neither the identity nor the affiliation of the speaker(s), nor that of any other participant, may be revealed".

Ground Rules

- Use mobiles and computers during breaks
- No video
- Pictures OK
- Use Name Tents

TFD's Process

Spirit of Participation

- Active listening
- Constructive, solution oriented interventions
- Participate as individual
- Help define and own the outcomes
- Facilitation "light" / Co-Chair's roles

TFDs Forest and Climate Change Related Initiatives

Forest & Climate Change:

275 Leaders

Financing REDD+: 100 Stakeholders

REDD+ Readiness: 240 Stakeholders

Brazil; Ghana; Guatemala; Ecuador; Cambodia

UNFCCC

BALI: RED

Co-benefits/safeguard will "derail" RED

Other Multilateral **Mechanisms** Poznan:

REDD

FCPF UNREDD Copenhagen:

REDD+ Consensus on principles and safeguards Phased approach

FIP

Cancun:

Ratification of REDD+ Guidance and safeguards for REDD +(in ANNEX 1)

REDD+ Partnership Durban:

Market and nonmarket mechanisms may be both appropriate

REDD+ Partnership:

75 countries **FCPF: 37 UNREDD: 44**

FIP: 8

REDD+ Readiness Key Findings

- Establishment of a revenue and benefits distribution system
- Access to, use and availability of information and its use in capacity-building
- Effectiveness of multi-stakeholder participation and engagement mechanisms and processes
- Reform of policy and legislative frameworks, particularly those on tree and carbon rights
- Integration of REDD-plus policies with broader land-use plans and other sector and developm plans

REDD+ Benefit Sharing Initiative

Global Partner

Initiative Support

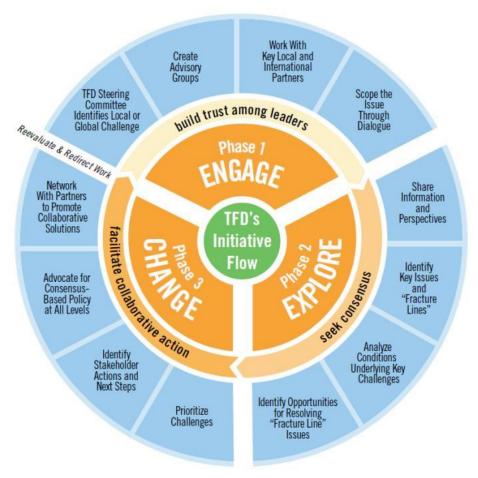

Objectives of REDD+ Benefit Sharing Initiative

- Build a community of practice among locally-rooted, well connected REDD practitioners to share experiences and to develop practical tools that support effective, efficient and equitable benefit sharing for REDD+;
- Analyze the current state of REDD+ Benefit Sharing in several countries and identify the challenges and opportunities of designing and implementing those mechanisms more broadly;
- Promote appropriate economic, policy and institutional arrangements at local, national and international levels to facilitate equitable and efficient delivery of REDD+ Benefit Sharing mechanisms.

REDD+ Benefit Sharing to Date

- Advisors: 16 experts representing communities, IP, gender experts IGO, private sector, NGOs
- 23-24 March 2013 Washington, DC

24-27 September, 2013 – Lam Dong, Vietnam

2-5 December, 2013-Elmina, Ghana

Key Issues(1)

What can be done in the immediate term to identify and work with beneficiaries when rights are unclear/or land right system is complicated?

Vietnam:

- National Level- Set priorities to guide identification (e.g. poverty reduction)
- Sub-national level multi-stakeholder platform to allow open discussions to identify beneficiaries based on local context

Ghana:

- Recognize existing customary system
- Strengthen capacity to mediate conflicts and negotiate benefits sharing
- Use lower-level legal instruments, e.g. documented ministerial documents, contracts

Ghana & Vietnam:

Holistic devolution of natural resource management rights to communities

Key Issues(2)

How to design national programs on REDD+ Benefit Sharing that accommodate different local context?

Vietnam:

- Recognize the differences and linkage between project-level and national-level approaches
- Design a macro framework under clear societal goals at nationallevel to guide participatory design and implementation of Benefit Sharing based on sub-national contexts

Ghana & Vietnam

 Ensure transparency and free access to information -feedback/grievance mechanisms

Key Issues(3)

How to use multiple benefits to incentivize stakeholders at different levels and in different phases of REDD+?

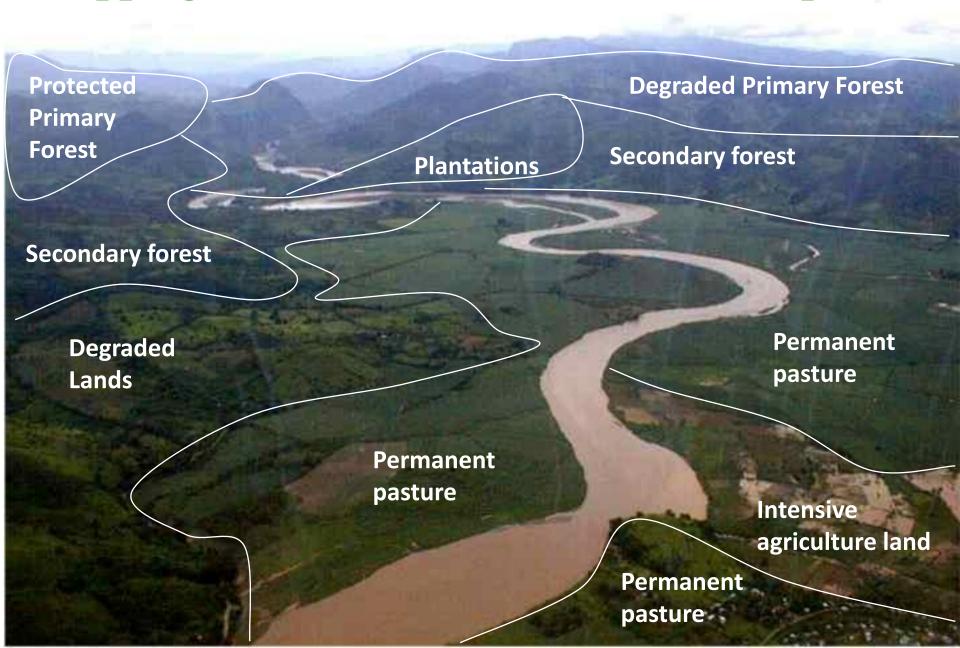

Vietnam:

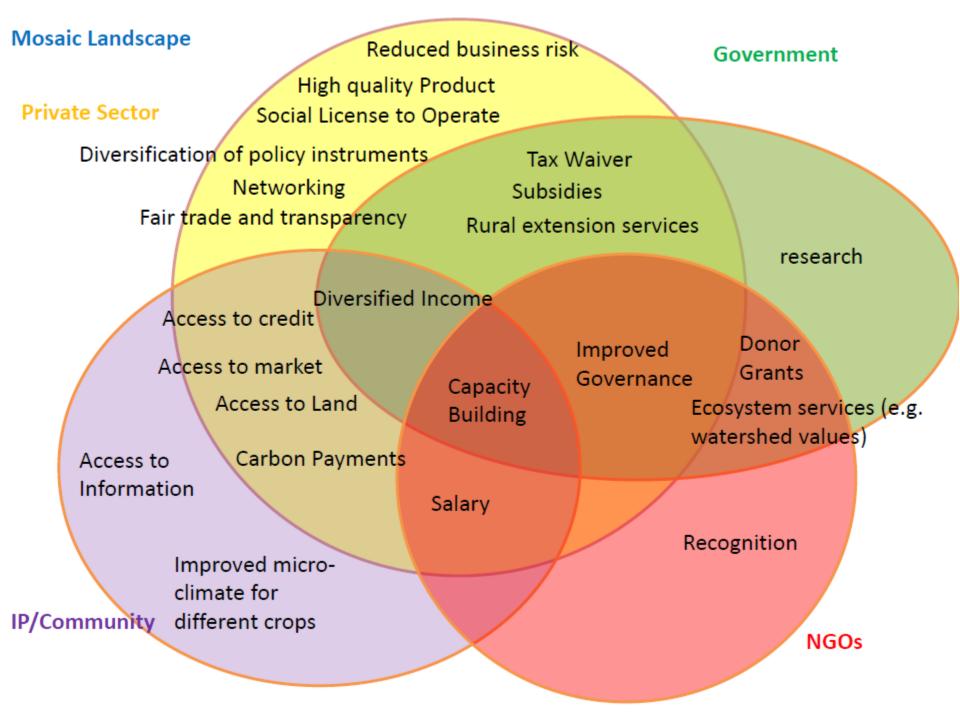

- Identify multiple benefits that can be used to incentivize stakeholders
- Build cross-sectoral collaboration and invest in sustainable landuse planning to maximize the benefits from forest landscapes

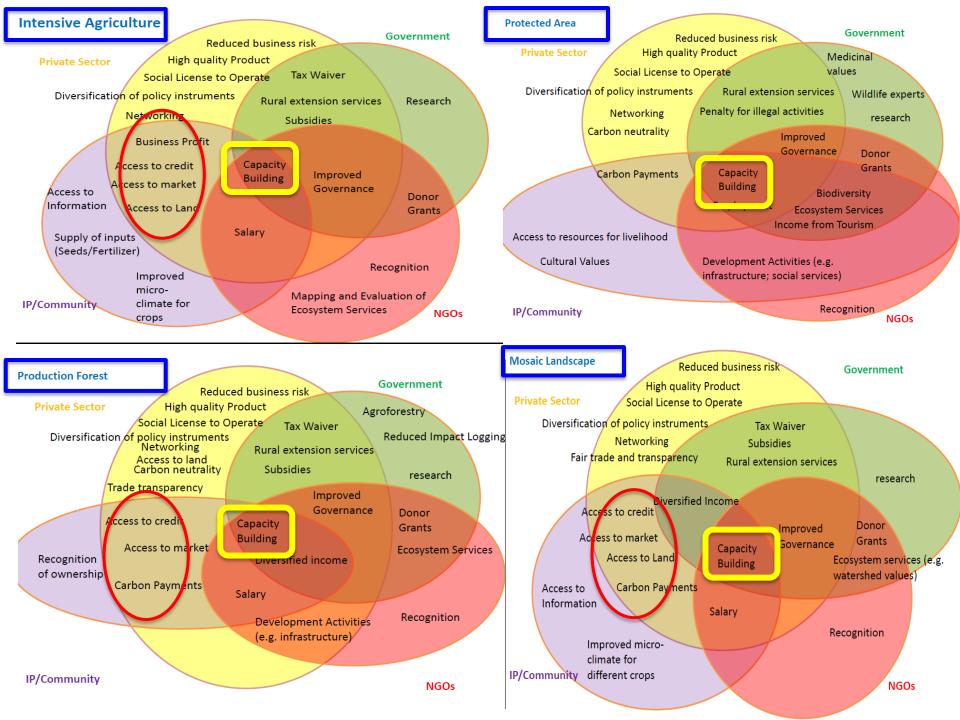

Ghana:

- Different stakeholders have different interpretations of cash/non-cash benefits but desire multiple benefits from REDD+
- Link short-term and long-term benefits: community desire improved livelihood; private sector: profit.
- Provide education to make stakeholders value ecosystem services benefits
- Design benefits based on cultural and spiritual values
- Consider trade-offs among different benefits among different stakeholder groups

Mapping Incentives for Different Landscapes

Key Issues(4)

How to actively involve private sector in designing and implementing REDD+ Benefits Sharing?

Ghana:

- Recognize different types of private sector may need different incentives to engage
- Building the business case for private sector
- Build private and public sector partnership

Key Issues(5)

On what basis can benefits be shared?

Vietnam:

- Different mechanisms apply at different levels and through different phases of REDD+
- Leverage multiple benefits and emphasis non-cash benefits at sub-national level
- Simplified messages and approaches at local level

Key Issues(6)

How to reduce the costs of implementing REDD+?

Vietnam:

- Build on existing programs where appropriate
- Invest in sustainable forest landscape management in ways that can generate income while reducing deforestation and degradation

Key Next Steps in Vietnam & Ghana

- Identify the bundle of benefits that can be used to incentivize stakeholders:
- Strengthen community forestry:
- Study and learn from existing mechanisms beyond PFES:
- Strengthen existing multistakeholder platforms for information exchange and discussions on REDD+ Benefit Sharing among different stakeholder groups including government, NGOs, private sector and communities:
- Institutionalize recourse and grievance procedures.
- •

Key Next Steps in Peru
