

Restoration Scoping Dialogue Day 2

The Forests Dialogue

Co-Chair Reflections Day 1

OPENING PLENARY

Urgent call

- Conserve remnant natural ecosystems
- **Restore** degraded ecosystems
 - 2 billion hectares of degraded land
 - tackle climate change
 - protect the livelihoods of local communities
 - decarbonize industrial value-chains

Co-Chair Reflections Day 1

Background Paper Presentation

- Restore degraded ecosystems: 2 billion hectares of degraded land
- Tackle climate change : decarbonize industrial value-chains
- Protect the livelihoods of local communities

Session I : Perspectives on the forest sector and ecosystem restoration

-Thinking about your work on restoration, what are the biggest challenges that you face and what do you see as the barriers to scaling up restoration?

Session II : Focus on the forest private sector and ecosystem restoration

- What are the expectations and motivations for forest private sector to scale up restoration?*
- What are the limitations to forest private sector actions?*

- Reflections?

Define **Private Forest Sector** for this dialogue

Actors with commercial interests in forest land and forest products.

This Includes forest based and adjacent :

- Forest based industries
- Small and medium enterprises
- Community forest based enterprises
- Smallholders
- Rights holders, individuals and family forests
- Collectives + associations
- Forest investors
- Self-identify as forest sector
- Direct forest management possibilities

Framing for today:

— Considering the challenges of scaling up restoration and the role of the private forest sector:

-What are the key fracture lines preventing success?

-What are areas where dialogue could help overcome barriers?

Proposed Areas for Discussion on private forest sector engagement in restoration:

-
1. Restoration continuum
 2. Spheres of private sector engagement
 3. “Carrots and sticks”

1. Restoration continuum

	Type	Cost	Biodiversity Benefits	Economic Potential
Natural regeneration	Natural forest regrowth			
	Assisted natural regeneration			
Active restoration	Ecological restoration			
	Small farmer reforestation, e.g. agroforestry, woodlots			
	Commercial, large-scale reforestation			
	Commercial reforestation with safeguards, e.g. certification
